# JOEL SALATIN

**in A 3 DAY MASTERCLASS on Spier Wine Farm, Stellenbosch**

**The participants in this Masterclass will have the opportunity to learn all about Joel's highly productive systems.**

He will cover as many aspects of his polyculture system as possible, from technical, ecological, economical, to social, educational and cultural.

Joel's aim is to support others in getting good results with maximum added value to the planet, the entire society and themselves.

Subjects included in the course are: soil, grazing, health, cattle, poultry, pigs and rabbits.

He will also pay attention to: forestry, water management, climate and composting.

Moreover he will zoom in on his approach to direct marketing and the training of new generations of farmers.
